

**12<sup>th</sup> January 2021: Heating Update and Lem Murphy RIP:**

The heating engineer visited today and confirmed that the parts were on order. Unfortunately, the wholesaler is now closed due to COVID cases and the staff awaiting test results, plus delays in producing new parts for these commercial boilers which are not kept in stock. As such we have contacted the manufacturer direct and asked them to send us an engineer. The good news is they have the information about our boiler system on file, the bad news is like many other industries they have delays due to COVID and will get to us as soon as they can. That means Wednesdays funeral Mass for Lem Murphy RIP has now been transferred to St Agnes Catholic Church in Eastbourne. We will endeavour to broadcast it via Facebook Live at 10am. Our thanks to the Eastbourne Parish for accommodating us.
