

6-7th February: Yellow warning of snow and Ice

Areas affected:

Various including London & South East England which includes Bexhill.

It is quite rare for coastal areas to get snow in any significant amounts, but it is possible, and the Yellow Warning from the Met Office Starts: 15:00 GMT on Sat 6 February, Ends: 23:59 GMT on Sun 7 February.

Snow showers may lead to travel disruption. As there is a small chance that untreated pavements and cycle paths become impassable, we ask you to keep an eye on the weather.

The Facebook page and the Newsletter Section of the Parish Website will be updated early on Sunday morning if it is deemed necessary to suspend public worship.

As there is pressure on the NHS, we do not want to see people slip and fall.
